Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner suggested an examiner's amendment to claim 5, line 11, changing "corresponding to" to --based on- to overcome the current rejection under Gropper et al.. Applicant indicated that that amendment would be acceptable and that applicant would check to see if a terminal disclaimer could be filed to overcome the double patenting rejection and move the case to allowance. However, a terminal disclaimer could not be filed in a timely manner so a Final Action is being sent out with this interview summary and the proposed examiner's amendment has not been entered.
